Subject: RE: WV0001279-The Chemours Company FC, LLC-Draft Permit

Thanks! Brian Trulear sent it to me yesterday and I forwarded it to NC to see if it would help with the drafting of the permit for the Fayetteville site.

Becky, Molly:

Just found out yesterday that West Virginia plans to public notice a draft NPDES permit for Chemours Washington Works Plant in WV (its attached). This permit does have values for GenX, PFOA and PFOS. I have not had a chance to dig into this, but it appears that they based their GenX values for discharge starting with North Carolina's drinking water health goal of 140 ppt.

Just FYI – WVDEP plans to public notice the Chemours Washington Works NPDES draft permit renewal on Thursday April 19th. See the fact sheet rationale beginning on page 183 of the attached pdf file for discussion on PFOA and GenX.

Hi All,

I'm forwarding you the long-awaited Washington Works draft permit that I just received from WVDEP. I will need Joel and/or Mark's assistance with the 316b requirements. It is a 243 page PDF but it looks like they included a lot of DMR pages.

316b intake requirements start on **page 86** of the PDF

316b compliance schedule starts on **page 73** of the PDF

The **Fact Sheet** starts on **page 170** of the PDF
